SHOTWELL PEPPERED

Aged Geo. West Alleged to Have Emptied a Barrel of His Gun.

DISPUTE OVER OWNERSHIP OF LAND.

One Fourth of July Morning Shooting Which Was Not Down on the Bills-Shotwell not Dangerously Injured-West Released on Heavy all.

SUDDEN ANGER.

George West, aged 89 years and one of Ottawa's oldest residents, is alleged to have shot and painfully wounded Benjamin Shotwell at the west side ravine at about 8:30 o'clock Fourth of

Shotwell was nailing up a hole in the line fence, separating the property owned by William Raymond from that rented by himself and was standing within a few feet of the ravine when he felt a stinging sensation on his back and shoulder and heard the re-port of a gun. He fell to the ground and called for assistance. He was taken into the house where his injuries were examined by Dr. Dyer, who pronounced them quite serious but

not necessarily dangerous.

The police were notified and Mr.
Shotwell stated that while he did not see his assailant he was quite certain that the shooting had been done by George West, his neighbor, living on the other side of the raying. the other side of the ravine.

When asked why he was so certain that Mr. West did the shooting, Mr. Shotwell stated that Mr. West and he had had numerous disputes over the ownership of that portion of the Coles property lying north of the ravine. When he (Shotwell) rented the property from Mrs. O'Neil, the present owner, he had been told that he was entitled to use all north of the ravine. Mr. West, who owns the lot south of the ravine, had claimed to own north of the ravine and four feet north of his (Shotwell's) barn. They had had hot words over the matter and West had threatened to make him suffer if he did not keep away from the barn and ravine and remove his horses from the barn. He paid no attention to the matter and went out to fix the fence, thus getting shot.

The police went to Mr. West's house and finding that he had just left for him. One barrel of the gun had recently been discharged and the other was yet loaded. Mr. West was arrested and placed in jail, where he remained until 7 o'clock last evening, when his attorney, M. T. Moloney, got out a writ of habeas corpus before 'Squire Bane, and he was released, under \$2,500 bail. Alfred White and Michael Formhals signing the bond.

The records in the recorder's office show that Mr. West purchased from the heirs of Nicholas Matthias what he supposed to be all of lot 3, in out lot 19, subdivision of the s. w. ‡ of sec. 11, were pleasantly passed playing about Ottawa, but the record also shows that the grounds, singing. swinging, etc. the north half of this lot did not be- Those present were as follows: the north half of this lot did not belong to the Matthias heirs but to Mrs. O'Neil. Some twenty or more years ago Nicholas Matthias, who was killed on the C. B. & Q. railroad sometime ago, sold the north half of lot 3 to Emory Lyons, making the ravine the dividing line Lyons transferred it to Dr. Color and upon his death his wid.

July Magazines,

In the Forum for July the series of autobiographical articles by a number of the greatest men of letters and of science is continued, and the contribution this month is by Prof. John Tyndall, who writes of the formative influences of his own life. Another article that is of a somewhat unusual sort is a study of Hamlet, by James E. Murdoch. Mr. Murdoch writes from the point of view both of an actor and of a literary student. The political articles in this number are "Obstacles articles in this number are "Obstacles to Civil-service Reform," by Mr. Walter M. Ferriss, one on "Gerrymandering," by Mr. Walter C. The Twin Bluffs Road.

The much-talked-of "Twin Bluffs road" has been completed from the Greatest Day of Years-Burt Barrett as county asylum to the top of the hill. The work of Contractor McQuade is exceptionally well done. The grade, naturally steep, is easy, the road way is wide, well drained, and on the hillside well supported and protected from washing by a foundation of sandstone thrown out by blasting in cutting down the grade. It is, in fact, one of the best pieces of road building we have seen in the town of Ottawa in many years. As it has cort a good deal many years. As it has cost a good deal more than the amount to be paid by the town (\$1,000), the taxpayers may congratulate themselves on getting out of so expensive a job at so low a cost to them, the extra expense being met by the Peerless Brick company.

Yesterday afternoon a number of taxpayers, all conservative men, at the request of the contractor, went down to see the new road, and all pronounced it excellent-much better

nounced it excellent—much better than they had expected to see; and their opinion we print below:

OTTAWA, July 5, 1890.

The undersigned, as private citizens of Ottawa, by request, visited Twin Bluffs last spring and then suggested to the highway commissioners that to the highway commission, they complete the road from the canar up the western slope, letting the work by contract. They visited the same locality this day and find the road completed and the work done in a very satisfactory manner, including very satisfactory manner, including very satisfactory manner, including to bridge, excavation and property of the opinion that the terms of the contract have been fully complied with by the contractor. We see no reason why the commissioners should not accept the work and order it paid for according to contract.

WM. CULLEN, WM. W. TAYLOR, J. R. SHAVER, MARTIN FLAHERTY, DANIEL MASON, IRA NELSON, HENRY HOLMES.

There seems to be some disposition on the part of the commissioners to delay accepting the road—it is difficult to see why, unless the road is too good. It is certainly a "testimonial" to the contract system of road building, of the kind a patent medicine firm would be willing to pay big money for, and an active pleader for contract town, secured his gun and followed work in the future in the place of the

"Have you any relatives who could assist you?" "I have relatives in Iowa and Indiana, but they could not help me any. Ford was then addressed as follows

"Have you any money to employ counsel?" "No. sir." "Have you no relatives to whom you

can apply for assistance?'

"Well, what do you intend doing? "I am guilty of no crime, so I will let the law take its course.'

Judge Blanchard then stated that he would not appoint counsel to defend just at present. The prisoners were then photographed at Bowman's galwas 19.40: which was 2.77 above the normal and 3.15 above '89. > Perhaps the most striking feature of the July Century is the long-expected debate on "The Single Tax," by Ed-ward Atkinson and Henry George. Mr. Atkinson opens the discussion in a paper on "A Single Tax upon Land;" Mr. George replies in "A Single Tax on Land Values:" and there is a rejoinder by Mr. Atkinson. Another important article is the beginning of the Century's "Prison Series," the first paper being a thrilling account of the life of "A Yankee in Andersonville," by Dr. T. H. Mann, accompanied by a Charles Howe Accused of Appropriating plan, and pictures made from rare photographs. The first of two papers on "Provence" describes and brilliantly illustrates an unhackneved region At Wholesale years ago, the estate has been involved of the Old World: that part of France which is like Italy-with its splendid and evidently the real trouble has just Roman remains, its palace of the in the magazine, prints a characteristic out-of-door paper entitled "A Taste of Kentucky Blue-grass." Joseph Jefferson, in his Autobiography, describes his early experiences in Peru and Panma; he also tells how he revived the play of "Rip Van Winkle," in London. The fiction of the number consists of the second part of the anonymous "Anglomaniacs;" the ninth part of Mrs. Barr's "Olivia;" a story, "The Reign of Reason," by Viola Roseboro' a young Southern writer with a rapidly growing reputation;) and a complete novelette, "Little Venice." by Grace Denio Litchfield, with a full-page illustration by Mary Hallock Foote.

Cultivating the Canaigre.

The extensive cultivation of the cansigre plant, which is found growing without irrigation in many portions of New Mexico, is contemplated. The tubers produced by this plant yield s large percentage of tannin, superior to that extracted from hemlock bark, and not inferior to the oak bark product. This plant, like the mesquite, thrives in the driest seasons and in soils, where, apparently, there is very little moisture. After maturity the tubers dry in the ground, and often remain for years without decaying. The properties of this plant, like the soap weed, the root of which is used by the natives instead of soap, have been known to the natives of New Mexico for years. The properties of the soap weed are only just beginning to be known to Americans. While the Mexicans have used the bruised roots of this plant for toilet and laundry purposes for years without attempting to get it in a more convenient form, enterprising Americans have succeeded in extracting the Dam Old Fanny. need of a blood-purafler is plainly indicated. Washes and external applications are of no avail. The poison must be thoroughly eliminated from the system by stimulating the action of the liver and kidneys, which organs have become sluggish and inoperative, thereby throwing upon the skin the unnatural work of cleansing the system of its impurities. What is needed is Ayer's Sarsa-parilla—the best of blood medicines.

"My face for years was covered with pim-ples and humors, for which I could find no remedy till I began to take Ayer's Sarsaparilla. Three bottles of this medicine effected a thorough cure. I can confidently recom-mend it to all suffering from similar troubles." - Madison Parker, Concord, Vt.

"I had been troubled for some time with an eruption of the skin which, till I was induced to try Ayer's Sarsaparilla, defied all efforts to cure.
